Bwinbet UG Outbound CEO Brief

How outreach works, how prospects are sourced, and what messages are sent

1. Executive Summary

The outbound engine identifies sports-relevant audiences, sends compliant first-touch messages, tracks replies and positive intent, and converts qualified conversations into leads. This is managed with strict channel caps and anti-spam controls so growth stays reliable and platform-safe.

LIVE KPI TRACKING ENABLED IN DASHBOARD

2. How People Are Gotten (Prospect Acquisition)

Source channels

- X football/sports communities and engagement audiences.
- Instagram sports pages, active fan accounts, and creators.
- LinkedIn business operators for B2B automation opportunities.
- WhatsApp-ready contacts where direct permission exists.

Targeting logic

- Industry and geography rotation to avoid stale targeting.
- Per-channel daily caps to protect deliverability and compliance.
- Prospect scoring and de-duplication before any send.
- Suppression lists for opt-outs and prior declines.

3. Outbound Workflow (Step-by-Step)

1. Discover and score prospects from configured sources.
2. Apply compliance filters (eligibility, opt-in rules, suppression checks).
3. Generate channel-appropriate first-touch copy.
4. Send and log each outbound message in real time.
5. Monitor replies, classify sentiment, and detect buying signals.
6. Escalate positive responders to lead/conversion flow.

4. Message Strategy

Messaging is short, context-aware, and action-oriented. Tone is professional and sports-native for Bwinbet. Every message avoids abusive language and supports opt-out expectations.

Message Type	Purpose	Structure
First-touch DM	Start interest with relevance and trust.	Personal opening + value line + soft CTA.
Reply follow-up	Move conversation from curiosity to action.	Answer + proof/value + next step link.
Conversion close	Direct user to action pages.	Decision prompt + bet/info route.

5. Message Examples

Example A - First-touch (sports audience)
Hi [Name], thanks for following our football updates. We share high-signal match insights and smart picks daily. For full breakdowns visit **www.bwinbetug.info**, then place bets on **www.bwinbetug.com**.

Example B - Follow-up after response
Great question, [Name]. Today's strongest angle is built from form + timing + market movement. If you want the full board and reasoning, check **www.bwinbetug.info**, then lock your picks at **www.bwinbetug.com**.

Example C - Conversion push
If you're ready to play today's opportunities, go straight to **www.bwinbetug.com**. If you want context first, we've posted the full insights on **www.bwinbetug.info**.

6. Compliance and Safety Controls

- Daily limits per platform (kept below high-risk thresholds).
- No abusive, offensive, or manipulative language.
- Opt-out handling and suppression for do-not-contact users.
- Channel-specific policies respected before and during sending.

7. Live Outbound Metrics (Dashboard)

For Bwinbet, outbound cards now report live values:

- **Prospects Contacted:** total outbound sends.
- **People Responding:** unique responders (not just raw reply events).
- **Replies:** all inbound reply events.

- **Conversions:** responder-to-conversion outcomes.
- **Demo Bookings:** booked actions where applicable.
- **Conversion Rate:** conversions divided by contacted prospects.
