## YouTube Connection Onboarding

Client account setup checklist

Date: \_\_\_\_\_

### Overview

This onboarding guide explains what is required to connect a client YouTube channel to the Dott Media platform for video uploads and reporting.

**Estimated time: 30-50 minutes**

### Account prerequisites

- YouTube channel with upload permissions.
- Google account owner or manager access.
- Consent screen configured (External or Internal).

### Technical prerequisites

- Google Cloud project with YouTube Data API v3 enabled.
- OAuth client ID and client secret created.
- Redirect URI set to the Dott Media callback URL.

### Required permission

Scope	Why it is needed
<code>https://www.googleapis.com/auth/youtube.upload</code>	Upload and publish videos to the channel.

### Connection steps

1. Create OAuth credentials in Google Cloud Console.
2. Add the Dott Media redirect URI to the OAuth client.
3. Open Dott Media > Integrations > YouTube, then select Connect.

4. Approve the YouTube upload permission.
5. Optional: set the default privacy status in Dott Media.

### Data we store per user

- YouTube refresh token (primary credential).
- Optional access token and channel metadata.
- Default privacy status.

### Verification checklist

- YouTube status shows Connected in the Integrations screen.
- Test upload succeeds.
- Channel metadata appears in reporting.
